# Background of launching the revamped programme and introduction of the new stream of Clinical Pharmacy

## 課程背景及引進新的專業方向-中醫臨床藥學

In view of the rapid changes in the market demand and to align with the Government's pragmatic approach in promoting the development of Chinese Medicine, the School has launched the new MChinMed programme with different streams, i.e. Oncology/Gynaecology\*/Acupuncture and Moxibustion\* since 2019/20. As time evolves, especially with the first new traditional Chinese medicine hospital commencing full operation by the end of 2025, the demand for competent healthcare professionals devoted to the integration of Chinese and Western Medicine disciplines, legitimacy and safety concerning the clinical prescriptions, and preparation of Chinese medicines would surge in the long run. The offer of the new stream of Clinical Pharmacy\* in 2025/26, would address such market demand in future and, it also serves as another unique stream offered by the School.

因應市場的需求急速轉變及貫徹政府以務實推廣中醫的發展方針，本學院自2019/20學年起，推出新的中醫學碩士課程並引入不同專業方向，包括腫瘤學/婦科學/針灸學。隨著時代變遷，尤其新的中醫醫院將於2025年底全面投入服務，針對中西醫結合、臨床用藥的合理性及安全性，以及中藥製劑相關的專業人才需求更為殷切。於2025/26推出新的專業方向—中醫臨床藥學，將填補上述的市場空缺，並為學院所提供的另一獨特專業方向課程。

## Programme Objectives 課程目標

The MChinMed programme aims to provide in-depth theoretical knowledge and extensive clinical training of the respective stream. Besides, students are also expected to master the diagnostic and therapeutic means of common and complicated illnesses, as well as the techniques of using different prescriptions of herbal medicines and acupuncture to enhance the therapeutic effect. The new stream, on the other hand, equips students with the knowledge in identifying the interactions between the Chinese and Western medicines, techniques in preparation of Chinese medicines, as well as management skills of Chinese medicine dispensary and related industry, and to enhance students' capability in prescription of remedies for specific kinds of illnesses and enhance the service quality as a whole.

中醫學碩士課程旨在提供相關專業範疇內深入的理論知識及全面的臨床訓練。此外，學生亦須掌握常見及疑難雜症的辨證論治，熟悉相關病症的用藥及針灸技巧以提升療效。新的專業方向則教授學生中西藥間的相互作用、中藥製劑技術、中藥房及中藥相關行業管理的知識，以提高學生針對特定疾病精準用藥治療的能力，並提升業界的整體服務質素。

## Distinctive Features of the Programme 課程特色

- Gynaecology, Oncology and Clinical Pharmacy are the **unique** streams of the MChinMed programme offered by the School of Chinese Medicine (SCM), HKU with no close alternatives offered by other local tertiary institutions currently

婦科學、腫瘤學及中醫臨床藥學為港大中醫藥學院開辦的中醫學碩士課程下**獨有**的專業方向，其他本地大專院校目前並無開辦類近課程

- To allow students to attain interdisciplinary knowledge of different streams through attending common courses and some of the classes of designated core courses, the exchange of interdisciplinary knowledge across different streams facilitates the medical diagnosis of illnesses, as well as enhancing the therapeutic effectiveness of herbal Chinese Medicines with the use of acupuncture and moxibustion

通過參與必修科目及指定核心科目的部份課堂，學生可取得跨領域的知識及技能，不同專業方向之間的知識交流有助病症診斷，提高方藥結合針灸的治療效果

- To provide a high degree of flexibility which caters for students' different needs by offering two pathways, namely **project-based and practice-based** in the second year of studies

課程提供一定彈性，為了配合學生的不同需要，於第二年的課程中提供兩項**以報告為主及臨床/實踐為主**的路徑

- An effective integration of traditional Chinese Medicine with modern medicine, Chinese Medicine with Western Medicine philosophies, theoretical teaching with practical application, and Chinese herbal medicines with acupuncture and moxibustion

傳統中醫學與現代醫學相結合、中醫與西醫理念相結合、理論與實踐相結合及中藥與針灸相結合

- To be increasingly familiar with the actual operation and market demand related to Chinese medicine industry, graduates may serve in different positions, such as Chinese Medicine clinics, Chinese medicine hospital, pharmaceutical plants, quality control centres in public or private sector, etc (**with respect to the new stream-Clinical Pharmacy**)

更為熟悉中醫藥相關產業的實際運作及市場需求，畢業生亦可望從事不同崗位，如中醫診所、中醫醫院、製藥廠、公營或私營的品質控制中心等（**適用於中醫臨床藥學**）
